

# NORTH SEATTLE SIDEWALKS

## Coming as soon as 2019!

July 2018

### PROJECT OVERVIEW

We're installing new sidewalks in multiple locations in North Seattle in 2019 (see map on reverse side). These segments have been identified as priorities for pedestrian improvements within the Safe Routes to School and Sidewalk Development Programs. We're also working with Seattle Public Utilities on NE 117th St and 12th Ave NE to develop natural drainage infrastructure on these streets as we implement new sidewalks. All of these projects aim to improve walkability and accessibility to neighborhood schools, parks, transit, and businesses.

### SCHEDULE

We're reaching out to the community over the next few months to notify local residents of the project and discuss any potential impacts. We plan to install these sidewalks in 2019 and will send out a construction notice to local residents prior to installation.

### FUNDING AND SELECTION

These projects are funded by the 9-year Levy to Move Seattle. Additional funding is provided by state grants and Seattle Public Utilities. We selected these projects for funding because they scored highly on the Pedestrian Master Plan, which aims to improve safety along the walking routes to schools and transit.

### GET INVOLVED

If you have any questions or comments regarding these projects, or if you would like to schedule a briefing, please send us an email at [NorthSeattleSidewalks@seattle.gov](mailto:NorthSeattleSidewalks@seattle.gov). To learn more about these projects, as well as other upcoming sidewalks projects in Seattle, please visit [www.seattle.gov/transportation/sidewalkdevelopment](http://www.seattle.gov/transportation/sidewalkdevelopment).

### WHAT YOU NEED TO KNOW

- **If you have a mailbox at the edge of your street where a new sidewalk will be:** we'll coordinate with the US Post Office and your mail carrier to relocate any mailboxes. You can expect crews to relocate your mailbox within a few feet of its current location prior to installing the new sidewalks.
- **If a new sidewalk is replacing a gravel or paved shoulder:** we know how important on-street parking is, so we will maintain parallel parking next to the new sidewalks wherever possible. However, you will no longer be able to park in the gravel or paved shoulders along these segments as you may do today.
- **If you have a driveway that extends into the area where a new sidewalk will be:** we will include driveway aprons in the new sidewalks to maintain driveway access. We'll notify you before construction of your driveway apron begins.
- **If you have other items in the public right-of-way in front of your property:** we'll follow up separately if you have items in the public right-of-way that must be moved prior to construction.

*Sidewalk improvements help make Seattle a more walkable city by enhancing safety, equity, vibrancy, health, connectivity and community character.*
