

2024 Second Quarter

# Surveillance Technology Determination Report

Seattle Information Technology

## Summary

The Privacy Office received 61 total requests for privacy reviews during Q2 of 2024. 61 technologies and projects were applicable for this report. One (1) of the technologies reviewed during Q2 of 2024 met the ordinance definition of a surveillance technology but is considered exempt from the Surveillance Impact Report (SIR) process under ordinance-defined exclusion criteria.

## About This Report

The Seattle City Council passed [SMC 14.18](#) ("Surveillance Ordinance") to provide greater transparency to City Council and the public when the City acquires technology that meets the City's criteria of surveillance. In addition to review and approval requirements for new and existing technologies, the Surveillance Ordinance requires the City's Chief Technology Officer (CTO) to submit a quarterly report to City Council of all technology acquisitions. This report provides a list of all such technology acquisitions, the process followed, and the determinations for each of the technologies reviewed.

## Ordinance Requirement

This document is prepared pursuant to SMC 14.18.020.B.3, which states:

*The CTO shall, by no later than 30 days following the last day of each quarter, submit to Council, by filing with the City Clerk and providing an electronic copy to the chair of the committee responsible for technology matters, the co-chairs of the Working Group, the City Auditor, the Inspector General for Public Safety, and the Director of Central Staff, a surveillance technology determination list that includes all technology from that quarter that was reviewed under the process established in subsection 14.18.020.B.1, along with supporting information to explain the justification for the disposition of items on the list. The CTO shall also post the list to the City's website.*

## How This List Was Compiled

City staff must submit a Privacy and Surveillance Assessment (PSA) before new non-standard technology may be acquired. The assessment is used to determine if a given technology meets the City's definition of "surveillance technology" as defined by the City's Surveillance Policy. City staff were informed of this new process through an all-City email, engagement meetings with critical stakeholders such as IT Client Solutions Directors, financial leadership, and project managers. The report includes technologies and projects reviewed through the PSA process between April 1, 2024, and June 30, 2024. If a technology is discovered to have been acquired outside of this process, the CTO will inform Council. Inapplicable requests for review (for example requests for standard software, redundant requests, consultant contracts, etc.) were removed.

## Table of Department Acronyms

The following department acronyms are used in this report and are provided as a reference:

<b>Acronym</b>	<b>Department</b>
<b>ARTS</b>	Office of Arts and Culture
<b>AUD</b>	Office of the City Auditor
<b>CBO</b>	City Budgets Office
<b>CEN</b>	Seattle Center
<b>CITYWIDE</b>	Citywide
<b>CIV</b>	Civil Service Commission
<b>CPC</b>	Community Police Commission
<b>DEEL</b>	Department of Education and Early Learning
<b>DON</b>	Department of Neighborhoods
<b>SDOT</b>	Seattle Department of Transportation
<b>EEC</b>	Ethics and Elections
<b>FAS</b>	Finance and Administrative Services
<b>HSD</b>	Human Service Department
<b>HXM</b>	Office of Hearing Examiner
<b>OIRA</b>	Office of Immigrant and Refugee Affairs
<b>ITD</b>	Information Technology Department
<b>LAW</b>	Law Department
<b>LEG</b>	Legislative Department
<b>MOS</b>	Mayor's Office
<b>OCR</b>	Office of Civil Rights
<b>OED</b>	Office of Economic Development
<b>OEM</b>	Office of Emergency Management
<b>OH</b>	Office of Housing
<b>OIG</b>	Office of the Inspector General
<b>OIR</b>	Office of Intergovernmental Relations

<b>OLS</b>	Office of Labor Standards
<b>OSE</b>	Office of Sustainability and Environment
<b>OPCD</b>	Office of Planning & Community Development
<b>PKS</b>	Seattle Parks and Recreation
<b>PPN</b>	Police Pension
<b>RET</b>	Seattle City Employees' Retirement
<b>SCD</b>	Seattle CARES (Community Assisted Response and Engagement) Department
<b>SDCI</b>	Seattle Department of Construction & Inspections
<b>SCL</b>	Seattle City Light
<b>SFD</b>	Seattle Fire Department
<b>SDHR</b>	Seattle Department of Human Resources
<b>SMC</b>	Seattle Municipal Court
<b>SPD</b>	Seattle Police Department
<b>SPL</b>	Seattle Public Library
<b>SPU</b>	Seattle Public Utilities

## Surveillance Technologies

---

Please note: The below technology is exempt from the SIR process due to meeting the following exclusion criteria:

- *Technology that is used to collect data where an individual knowingly and voluntarily provides the data.*
- *Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.*
- *Cameras installed on City property solely for security purposes.*

<b>Technology Name</b>	Ring Cameras		
<b>Description</b>	Ring Cameras are security cameras that FAS wishes to deploy for the security of onsite staff at Park 905 (now known as Airport Way Center building B).		
<b>Department</b>	FAS	<b>Case No.</b>	4971

## **Non-Surveillance Technologies**

---

Technologies that were reviewed and were not determined to be surveillance technologies have their reviews detailed in the supplemental materials appendix.

# Surveillance Technology Criteria Review

4/4/2024

## Technology Description

<b>Technology Name</b>	LLaMA-2 Large Language Model		
<b>Description</b>	Llama 2 is a family of pre-trained and fine-tuned large language models (LLMs) released by Meta AI in 2023. Released free of charge for research and commercial use, Llama 2 AI models are capable of a variety of natural language processing (NLP) tasks, from text generation to programming code.		
<b>Department</b>	ITD	<b>Case No.</b>	5176

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

**Do any of the following inclusion criteria apply?**

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

4/5/2024

## Technology Description

<b>Technology Name</b>	Visual Effects Plug-in Boris FX Sapphire		
<b>Description</b>	Boris FX makes award-winning creative plugins and applications for post-production workflows. The Boris FX Suite includes Sapphire, Continuum, Mocha Pro, Silhouette, CrumplePop, SynthEyes, and Optics products. Save tons of time on video editing, visual effects tasks, 2D and 3D motion tracking, advanced rotoscoping and digital painting, audio restoration, and graphic design needs.		
<b>Department</b>	ITD	<b>Case No.</b>	5181

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

4/8/2024

## Technology Description

<b>Technology Name</b>	DB Browser for Sqlite		
<b>Description</b>	DB Browser for SQLite (DB4S) is a high quality, visual, open source tool designed for people who want to create, search, and edit SQLite database files		
<b>Department</b>	SPU	<b>Case No.</b>	5179

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

### Do any of the following inclusion criteria apply?

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

4/8/2024

## Technology Description

<b>Technology Name</b>	Itron Temetra		
<b>Description</b>	Itron Temetra is a next-generation mobile meter data collection and management solution developed by Itron. It provides utilities with powerful tools to efficiently manage their metering infrastructure.		
<b>Department</b>	SPU	<b>Case No.</b>	5028

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

### Do any of the following inclusion criteria apply?

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

4/11/2024

## Technology Description

<b>Technology Name</b>	Witness		
<b>Description</b>	Magnet Witness is built with the foundation of DVR Examiner, Magnet Witness recovers more video evidence than ever before including video from over 50 native DVR file formats plus cloud sources like Ring or Arlo. Review and analysis just got easier too with new capabilities like synchronized matrix views and sub-clipping.  Video is stored in Evidence.com		
<b>Department</b>	SPD	<b>Case No.</b>	5030

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City Functions.

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

4/18/2024

## Technology Description

<b>Technology Name</b>	Ring Cameras		
<b>Description</b>	Ring Cameras are security cameras that FAS wishes to deploy for the security of onsite staff at Park 905 (now known as Airport Way Center building B).		
<b>Department</b>	FAS	<b>Case No.</b>	4971

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**Yes** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

- Yes** Technology that is used to collect data where an individual knowingly and voluntarily provides the data.

---

- Yes** Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.

---

- No** Technologies used for everyday office use.

---

- No** Body-worn cameras.

---

- No** Cameras installed in or on a police vehicle.

---

- No** Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.

---

- Yes** Cameras installed on City property solely for security purposes.

---

- No** Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

---

- No** Technology that monitors only City employees in the performance of their City functions.

### Do any of the following inclusion criteria apply?

<b>No</b>	The technology disparately impacts disadvantaged groups.
<b>No</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>Yes</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>No</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology meets the definition of a surveillance technology, but falls under exclusion criteria. Therefore, this technology will not require a Surveillance Impact Report. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	Feedly for ART		
<b>Description</b>	<p>Simple RSS reader that multiple staff can access and manage.</p> <p>Feedly is a news aggregator application for various web browsers and mobile devices running iOS and Android. It is also available as a cloud-based service. It compiles news feeds from a variety of online sources for the user to customize and share with others.</p>		
<b>Department</b>	ART	<b>Case No.</b>	5173

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City Functions.

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

---

- N/A** Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

---

- N/A** Technology that monitors only City employees in the performance of their City functions.

### Do any of the following inclusion criteria apply?

- N/A** The technology disparately impacts disadvantaged groups.

N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	MS Viva Insights		
<b>Description</b>	<p>Microsoft Viva Insights in Microsoft 365 find opportunities and recommend insights personalized to individual (aka Office 365 user) to build better work habits by summarizing their Microsoft 365 data.</p> <p>Privacy by Design: Microsoft emphasizes privacy in Viva Insights. Each individual has the option to opt-in or opt-out at anytime.</p>		
<b>Department</b>	ART, AUD, CBO, CEN, CIV, CPC, DOE, DON, DOT, EEC, FAS, HSD, HXM, IMR, ITD, LAW, LEG, MOS, OCR, OED, OEM, OFH, OIG, OIR, OLS, OSE, PCD, PKS, PPN, RET, SCD, SCI, SCL, SFD, SHR, SMC, SPD, SPU	<b>Case No.</b>	5214

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.

N/A Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

---

N/A Technology that monitors only City employees in the performance of their City functions.

---

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

---

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	Fire & Fuels Tools		
<b>Description</b>	<p>Fuel and Fire Tools (FFT) is a software application that integrates several fire management tools, including the Fuel Characteristics Classification System (FCCS - version 4.0), Consume (version 5.0), Fire Emission Production Simulator (FEPS - version 2.0), Pile Calculator, and Digital Photo Series into a single user interface.</p> <p>Fuelbeds vary widely in their physical attributes, potential fire behavior, and fire effects. The FFT suite of tools uses fuels data classified into fuelbeds to predict a suite of outputs related to prescribed and wildland fire. These outputs include several variables relevant to carbon accounting and quantification, such as estimations of carbon stores for different fuelbeds, carbon flux from fire (before/after carbon estimations), and carbon emissions. It also predicts fire behavior attributes that can be used to evaluate fuel treatment effectiveness. The fuelbeds are designed to represent the diversity of fuels found throughout the United States.</p>		
<b>Department</b>	SPU	<b>Case No.</b>	5353

## Criteria

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

6/18/2024

## Technology Description

<b>Technology Name</b>	Fuel Cloud		
<b>Description</b>	Fleet Management is requesting use of the Fuel Cloud application, an automated fuel management system to authenticate employee and vehicle access to City fueling facilities. The application then logs the fuel transaction details, including the date/time and quantity of fuel dispensed.		
<b>Department</b>	FAS	<b>Case No.</b>	5358

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

**Do any of the following inclusion criteria apply?**

<b>N/A</b>	The technology disparately impacts disadvantaged groups.
<b>N/A</b>	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
<b>N/A</b>	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
<b>N/A</b>	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

**N/A** Technologies used for everyday office use.

**N/A** Body-worn cameras.

**N/A** Cameras installed in or on a police vehicle.

**N/A** Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.

**N/A** Cameras installed on City property solely for security purposes.

**N/A** Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.

N/A Technology that monitors only City employees in the performance of their City functions

**Do any of the following inclusion criteria apply?**

N/A The technology disparately impacts disadvantaged groups.

---

N/A There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.

---

N/A The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.

---

N/A The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

**Result**

**Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

# Surveillance Technology Criteria Review

6/27/2024

## Technology Description

<b>Technology Name</b>	ST Viewscan III Software		
<b>Description</b>	The ST Viewscan software is used to pull microfilm images of archival ETO drawings from the ST Viewscan scanner for current ETO engineering projects.		
<b>Department</b>	SCL	<b>Case No.</b>	5334

## Criteria

### Does the technology meet the definition a Surveillance Technology?

**No** Technology whose primary purpose is to observe or analyze the movements, behavior, or actions of identifiable individuals in a manner that is reasonably likely to raise concerns about civil liberties, freedom of speech or association, racial equity or social justice. Identifiable individuals also include individuals whose identity can be revealed by license plate data when combined with any other record.

### Do any of the following exclusion criteria apply?

<b>N/A</b>	Technology that is used to collect data where an individual knowingly and voluntarily provides the data.
<b>N/A</b>	Technology that is used to collect data where individuals were presented with a clear and conspicuous opt-out notice.
<b>N/A</b>	Technologies used for everyday office use.
<b>N/A</b>	Body-worn cameras.
<b>N/A</b>	Cameras installed in or on a police vehicle.
<b>N/A</b>	Cameras installed pursuant to state law authorization in or on any vehicle or along a public right-of-way solely to record traffic violations.
<b>N/A</b>	Cameras installed on City property solely for security purposes.
<b>N/A</b>	Cameras installed solely to protect the physical integrity of City infrastructure, such as Seattle Public Utilities reservoirs.
<b>N/A</b>	Technology that monitors only City employees in the performance of their City functions.

### Do any of the following inclusion criteria apply?

N/A	The technology disparately impacts disadvantaged groups.
N/A	There is a high likelihood that personally identifiable information will be shared with non-City entities that will use the data for a purpose other than providing the City with a contractually agreed-upon service.
N/A	The technology collects data that is personally identifiable even if obscured, de-identified, or anonymized after collection.
N/A	The technology raises reasonable concerns about impacts to civil liberty, freedom of speech or association, racial equity, or social justice.

## Result

### **Does the technology meet the criteria for surveillance technology and require a review?**

This project/technology does not meet the definition of surveillance technology. This is based on the current information available. The determination is subject to change based on new information or City Council action.

## Technology Description

<b>Technology Name</b>	FlamMap		
<b>Description</b>	FlamMap is a fire analysis desktop application that ONLY runs in a 64-bit Windows Operating System environment. It can simulate potential fire behavior characteristics (spread rate, flame length, fireline intensity, etc.), fire growth and spread and conditional burn probabilities under constant environmental conditions (weather and fuel moisture). With the inclusion of FARSITE it can now compute wildfire growth and behavior for longer time periods under heterogeneous conditions of terrain, fuels, fuel moistures and weather).
